

Thomas Stephan

Full-stack developer | C/C++ | systems | performance | tooling

Beaumont-sur-Oise, France | tstephan.fr | github.com/skydogzz | tstephan00@outlook.com

PROFILE

Full-stack developer focused on showcase websites, online CVs, and small web products that still need a backend.

I deliver clear, maintainable, production-ready work with a strong emphasis on structure, performance, and simplicity.

PROFESSIONAL EXPERIENCE

Freelance - 2024 to present

- Design and development of showcase websites and online CVs
- Integration of simple backends for content, publication, and administration
- Responsive interfaces with clear structure and maintainable code
- Deployment and maintenance with a delivery-first mindset

EDUCATION

42 - 2024 to present

- Practical training focused on programming, systems, C/C++, and autonomy

ESGI - Diplome Supérieur en Informatique - 2021 to 2024

- Bac+3 focused on information systems, development, and deployment support

DUT GEII, Neuville - 2018 to 2021

Bac STI2D - 2018

SELECTED PROJECTS

mandelbrot - Assembly Mandelbrot renderer with a strong low-level focus and explicit execution control
